FREQUENCY COORDINATION

Please be advised that policies related to frequency coordination for wireless devices, excluding cell phones, will be in effect for the 2024 East-West Shrine Bowl at Ford Center at The Star. You can initiate the coordination process via the NFL Event Frequency Coordination (EFC) site: <https://EFC.NFL.NET>

If you have any issues using the EFC site, please email EFCsupport@nfl.com.

It is very important that all media comply with this coordination requirement as soon as possible as the event is in a high use RF environment with limited spectrum. WE HIGHLY ENCOURAGE ALL MEDIA TO HAVE HARD-WIRED CONNECTIONS AT ALL TIMES. Using your own hotspots or wireless routers is strictly forbidden without prior approval.

PLEASE NOTE: Operation of wireless transmitting devices without prior coordination is not permitted. Failure to follow our radio frequency coordination process will result in the removal of the equipment from the event and any other sanctions needed to protect authorized and coordinated.
